Determining your head size is easy!

- 1. Print this page (make sure your printer setting is not scaling the page, keep it a 100%)
- 2. Cut out the three pieces by following the guides.
- 3. Tape together each piece, by overlapping and respecting the coloured edges.
- 4. Once the tape is assembled, go ahead and mesure your head size!

4. The Hat size where the end of the tape meets is your correct size. If you end up in-between mesurement,s use the next size up, 2. Cut out the three pieces by following the guides, and tape each piece together 3. Measure the circumference of your head in centimeters by holding a tape, but not too tight, just above your ears (where your hat will sit) Determining your head size is easy!
